EDUCATION

- **Lovely Professional University**

B.Tech in Computer Science

Jalandhar, IN

July 2020 – May 2024

TRAINING

- **MERN Stack Development**

April 2025 – April 2026

Acciojob

- Built and deployed scalable full-stack applications using MongoDB, Express.js, React.js, and Node.js following modular architecture patterns.
- Designed and implemented RESTful APIs with authentication and authorization, ensuring secure and efficient data handling.
- Strengthened problem-solving skills by practicing Data Structures and Algorithms with a focus on time and space optimization.
- Certificate Link : [Link](#)

PROJECTS

- **PrepWise AI — AI Interview & Resume Optimization Platform**

April 2026

- Developed a full-stack MERN application that generates AI-driven interview questions and personalized preparation plans based on job descriptions.
- Designed secure REST APIs using JWT authentication and role-based access control to ensure data integrity and user security.
- Structured the frontend using modular layers (UI, Hooks, State, API), improving scalability and maintainability.
- Integrated Generative AI services for resume analysis, skill gap identification, and ATS optimization.
- Implemented resume parsing and job-match scoring features to enhance candidate-job alignment.
- GitHub Repository: [Link](#)

- **Financly — Personal Finance Management System**

December 2025

- Developed a secure personal finance management system to track income, expenses, and account balances.
- Integrated Firebase Authentication for secure user login and session management.
- Designed interactive dashboards with data visualization to improve financial insights and user experience.
- Implemented CSV import/export functionality to enable efficient data management and portability.
- GitHub Repository: [Link](#)

- **Weather-Wise — Real-Time Weather Monitoring Application**

December 2025

- Built a responsive web application to display real-time weather data using external APIs.
- Implemented optimized API calls and dynamic city-based search for improved performance.
- Enhanced UI using reusable React components and efficient state management techniques.
- Hosted Link: [Weather-wise](#)

- **Portfolio — [Link](#)**

TECHNICAL SKILLS

- **Languages:** JavaScript, Java, Python, HTML, CSS, SQL, MongoDB

- **Frameworks & Libraries:** React.js, Redux, Node.js, Express.js, Tailwind CSS, Bootstrap

- **Tools & Technologies:** Git, Docker, Postman, VS Code, IntelliJ IDEA, Google Cloud Platform, REST APIs, JWT Authentication
